DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to a helicopter, classified in class 244, subclass 17.19.
 - II. Claims 12-18, drawn to a method of retrofitting a helicopter, classified in class 244, subclass 17.11.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made by a different process, because the helicopter can be made from the start with the tail section as claimed and seen in the application. The helicopter does not have to be made in a first configuration and retrofitted; it may merely be made with the tail portion as claimed, which is a materially different process than is claimed in invention II.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Delbert Barnard on 9/13/04 a provisional election was made without traverse to prosecute the invention II, claims 12-18.

Art Unit: 3643

Affirmation of this election must be made by applicant in replying to this Office action.

Claims 1-11 are withdrawn from further consideration by the examiner, 37

CFR 1.142(b), as being drawn to a non-elected invention.

Allowable Subject Matter

5. **Claims 12-18 are allowed.**

6. The following is an examiner's statement of reasons for allowance: the prior art of record all failed to show either alone and/or in combination a helicopter retrofit method wherein the tail section is removed and replaced with one having a rear edge recess between the upper and lower end and also a new rear end portion of the fuselage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

7. This application is in condition for allowance except for the presence of claims 1-11 drawn to invention I, a helicopter that is non-elected without traverse. Accordingly, **claims 1-11 have been cancelled.**

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following art discloses helicopters.

- a. USPN 3966145
- b. USPN 2862361
- c. US DES. 425853
